

The Lacombe Guardian

VOL. II. No. 9

LACOMBE, ALBERTA, FRIDAY, JULY 10, 1914

\$1.00 PER YEAR

Lacombe Oil & Development Co. Ltd.

Non Assessable and Non Personal Liability

The above company, which is the first local company that has been formed for the purpose of drilling for oil in this district, was formed, and duly registered on Friday, last.

This company has been formed for the purpose of acquiring oil leases, covering 1,920 acres of land, from the Medicine Valley Oil & Development Company, Limited.

The meeting for the formation of the company was held at the offices of Edwin H. Jones, Esq., barrister, Lacombe, on Wednesday last, and the same was well attended. W. F. Graham, Esq., occupied the chair. E. H. Wilson, Esq., explained to the meeting that the Medicine Valley Oil & Development Company, Limited, are the holders of oil and natural gas leases covering twenty (20) sections of land, situate in Townships 43 and 44, Ranges 3, 4 and 5, West of the 5th Meridian or, in other words, in the neighborhood of Lacombe.

A preliminary contract had been entered into by Mr. Wilson with the holding company, by which the holding company agreed to sell to Mr. Wilson, as trustee for the new company, 1,920 acres, in consideration of \$85,000, to be paid as follows:

\$5,000 to be paid in cash and \$80,000 by allotment to the Medicine Valley Oil & Development Company, Limited, of 80,000 fully paid-up shares of the par value of \$1.00 each in the purchasing company. The selection of the land to be so acquired, to be made by the purchasing company.

A resolution was unanimously passed that a company be formed under the name of the Lacombe Oil & Development Company, with a capital of \$200,000, divided into 200,000 shares at \$1.00 each.

A further resolution was passed that the preliminary agreement before referred to be adopted, and that out of the shares forming the capital stock, 60,000 should be allotted to the selling company, 20,000 remain in the treasury, and the balance, 100,000, be offered to the public at par.

No payment is being made to any promoter, and the costs of the formation of the company are being paid by the vendors. The only expense that the new company will be called upon to meet out of the sale of its stock will

be \$6,000 cash payment to the vendor company, and the vendor's commission, which has been limited to 16 per cent.

The following officers and directors were appointed:—W. F. Puffer, Esq., M.P.P., President; Managing Director, E. H. Wilson, Esq.; Charles H. Putland, Esq., Merchant, Bentley, John Parker, Esq., License Inspector; Lacombe, Edwin H. Jones, Esq., Barrister, Lacombe; Secretary, Treasurer, Jesse Fraser, Esq., Lacombe; Bankers, Union Bank of Canada, Lacombe; Auditor, John McKenty, Lacombe; Solicitor, Edwin H. Jones, Esq., Lacombe; Fiscal Agents for Alberta (south of Lacombe) Jesse Fraser Agency, Lacombe; (north of Ponoka) Bernard Maxfield, Esq., Edmonton; Registered Office of the Company, Railway Street, Lacombe, Alberta.

The 20 sections from which the land is to be selected, has been carefully chosen under the advice of experts, and the land to be taken by this company will be selected by Mr. Wilson, assisted by an expert, and they will at the same time decide upon the site for the drilling of the first well.

The whole of the money arising from the sale of the stock, with the exception of the payment to the vendors and broker's commission, will be used exclusively for development purposes, and the moment sufficient funds are in hand, drilling operations will be commenced.

We trust that the Company will receive strong support in the district, as everything in connection with it is local, and has been formed for the express purpose of giving to the local people an opportunity of investing their money in a sound concern, controlled by some of the best known men of the district.

It may be of interest to explain that the Medicine Valley Oil & Development Company is a private syndicate, composed of Edmonton ladies and gentlemen, with a few of our local townspeople, and that another development company is being formed in Edmonton to develop another portion of the 20 sections, thereby greatly improving the holding of the Lacombe company.

LIQUORS ARE BANISHED FROM AMERICAN NAVY

Washington, D.C., July 2.—The famous order issued by Secretary Daniels last April banishing all intoxicating liquors from the United States navy went into effect yesterday. The order reads: "The use or introduction for drinking purposes of alcoholic

liquors on board any naval vessel, or within any yard or station, is strictly prohibited and commanding officers will be held directly responsible for the enforcement of this order."

The anti-canteen laws for the army, passed by congress after a severe and prolonged battle of the temperance forces of the country, are less sweeping than the prohibition which has now been put into effect in the navy. The order of Secretary Daniels abolishes the officers' wine mess and absolutely forbids the "use or introduction" of alcoholic liquors. In the army prohibition is restricted to "the sale or offering in" intoxicating liquors. Army officers under this law may maintain a wine mess at their clubs.

CONSERVATION OF THE PUBLIC HEALTH

Ottawa, July 6.—The work of the commission of conservation of Canada will be extended shortly along new lines. To the task of conserving the natural resources of the Dominion will be added the conservation of public health and the education of the general public in matters pertaining to this. On August 1st, the first number of a publication dealing with public health, public hygiene, sanitation and similar subjects, will be issued. After that date it will be issued monthly and copies distributed to all on the mailing list of the commission as well as all doctors, teachers and others interested in the work. By means of this publication it is intended to carry on a vigorous campaign for the education of the public on this question, so important to national progress. A similar campaign has been in progress in the United States for a number of years under the control of the boards of health of the different states and has been attended with marked success and a distinct betterment of conditions.

It was at one time proposed to establish a national board of health as a separate department of the Dominion Government, but it has now been decided that the field should be developed by the conservation commission.

When the fact is taken into consideration that out of the 100,000 deaths, more or less, in Canada last year, 40,000 could have been prevented by a proper regard for sanitation, some idea will be gained of the importance of the task assumed by the commission. The commission of water supply will be gone into very carefully in the early part of the investigation of conditions.

Life Sentence for Chinese Murderer

Vancouver, B.C., June 30.—Declaring that he thought Jack Kong, the Chinese servant who killed Mrs. Chas. Millard and dismembered and burned her body, was guilty of murder instead of the lesser crime of manslaughter, which the jury had decided was the crime, Justice Gregory today emphasized his feeling by sentencing the 17-year-old criminal to spend the rest of his life in the penitentiary.

Usually a "life" sentence means 21 years, but Kong, under the sentence today, must spend all his years within prison walls. His lordship declared he was unable to see one redeeming feature for he regarded the crime as one of peculiar cunning and ferocity.

CORNERED CHINAMAN KILLS HIS ASSAILANT

Essex, Sask., July 1.—George Bidler, farmer, was shot and killed last evening at Bromhead, by Lee Han, Chinese restaurant keeper. The Chinaman was arrested by Constable Wheeler, R.N.W.M.P., and appeared on preliminary trial before Magistrate Spera, who committed him for trial.

Bidler has been drinking during the day, and late in the afternoon proceeded to the Chinaman's, where he threatened to clean out the place.

Lee Han told him to stand off, and backed towards the door to get out of the way of Bidler, who continued to advance, and as the Chinaman could not get out of his way after warning Bidler he would shoot, he fired the shot, killing Bidler instantly.

Threats were made to lynch the Chinaman, and the police, to avoid trouble, hurried him to Estevan.

CRAZED BANDIT IS FOUND DEAD IN LONELY HUT

Quebec, July 10.—Joseph Morand, the demented bandit, who since he ran amuck with a gun and shot three men on Thursday, July 2, has terrorized the village and district of Villeroi, in the county of Lotbiniere, was found dead Thursday in a hut in the woods, according to information received here Thursday afternoon by Provincial Police Chief McCarthy.

Morand's body was found by one of the posers of provincial police Rho, since the bandit did the shooting last Thursday, have been securing the woods about Villeroi—armed with rifles and prepared to take the desperado dead or alive. Whether the fugitive took his own life when he saw that he was hard pressed, or whether he died from wounds received in the fusillade which the

police poured into the hut in which he was hiding on Tuesday, and before which he wounded Peter Brown, a guide in the employ of the police, is not yet known. The telegram conveying the information to Chief McCarthy is very brief, and it was impossible to get into communication with Villeroi by telephone or telegraph. The telegram simply said:

"Morand found dead in camp."

REMARKABLE CURES FROM CONSUMPTION

Quebec, July 10.—Three rather remarkable cures have been effected at the shrine of Ste. Anne de Beaupre, it is claimed. A Mr. Francois Xavier Dorton, of Rumford Falls, Maine, who had been ailing for some time past with tuberculosis of the right hip, was suddenly cured at the famous shrine on July 7. It seems that he had been unable to walk without the aid of his crutches for the past two years, and had gone on a pilgrimage to Ste. Anne's, in the hope of being cured. Mr. Dorton left his crutches in the church and walked out a perfectly well man.

Another cure on the same day was effected on Mrs. Peter Laroche, of Ottawa. She had been lately ill with dyspepsia and had been feeling unwell for some time. This case, however, is not very certain, and the parish priest of Ste. Anne is anxiously awaiting word from the woman.

The most remarkable case was that of Mrs. George Marlow, of Watertown, N.Y. She had been very ill with palsy for the last six years, and had been condemned by several doctors, who stated that she would not be able to walk. As a last resort she went on a pilgrimage to Ste. Anne, and there she was cured of her wasting disease on July 24. She left her crutch behind her in the church as evidence of her complete recovery.

During the past six weeks some 25 cures are said to have been effected at the famous shrine.

STEAMER GOES AGROUND

Montreal, July 2.—The Canadian Pacific Railway steamer Assiniboia with one hundred passengers aboard, went ashore today at Bad Neighbor shoal, Cove Island, Georgian Bay.

News of the grounding reached the offices of the Marconi wireless telegraph here from the radio station of Sault Ste. Marie, Ontario.

In communicating the ship's plight, the wireless operator on the boat said it was thought the Assiniboia could back off as she was swinging and there were 11 fathoms of water under her stern. Her forepeak is leaking slightly. The weather this morning was calm and foggy.

The steamer Manitoba was called to the assistance of the stranded vessel, although it was said she was in no danger. The Assiniboia was bound from Sault Ste. Marie to Port McNicoll.

Big Liberal Gains in Manitoba

The early returns from the Manitoba elections indicated the downfall of the Roblin government, but later returns give the Conservatives a lead of a few seats, with deferred elections in three ridings. The Liberals are confident that Roblin will not have a safe working majority and are preparing for another campaign, believing another election cannot be long postponed. The Toronto Star in commenting on the result says: "Experience shows that a government cannot survive the shock of such a blow as was administered to the Roblin government."

ATTORNEYS WITHDRAW TITANIC DAMAGE SUITS

New York, July 2.—Attorneys representing claimants in suits for nearly \$18,000,000 against the Oceanic Steam Navigation Company, resulting from the loss of the Titanic, asked Federal Judge Hand yesterday to permit their clients to withdraw from proceedings in this country so that they may begin actions in England, where the law fixes the liability limit at \$3,000,000. Decision was reserved.

Recently the United States supreme court decided that proceedings to collect damages from the steamship company in this country shall be governed by the United States statute which limits the defendants' liability to \$97,000.

SEVERE BLOW TO CHRISTIAN SCIENTISTS

New York, July 10.—Commercialized use of Christian Science teaching was held by the appellate division of the supreme court today to be illegal. The conviction of Willis Vernon Cole for practising medicine without a license, when he accepted fees for Christian Science treatment, was sustained. A lower court found Cole guilty of violating the public health law and Cole appealed. The higher court, in its opinion, written by Justice Clark, today answered in the negative its premise:

"Is the commercialized use of prayer for the avowed purpose of treating all persons seeking cure for all kinds of bodily ills the religious tenets of a church?" Although concurring with the majority opinion, Justice Laughlin expressed the view that Cole might have legally accepted fees if he had practised at his patient's home or in a Christian Science church.

ALBERTA'S PROVINCIAL LAWS

The Tax on Corporations

Considerable criticism is being made by Conservative leaders of the tax on financial corporations, the principal charge being that it drives money from the province and increases the cost of loans to the people.

Alberta's tax is equal to the lowest imposed in Canada and is regarded by financiers as moderate and fair.

Why should financiers punish Alberta, as Tory leaders assert, when they are taxed more heavily in every other province with the exception of Manitoba, where the tax is the same as in Alberta?

There has been no increase in interest, as asserted, or method of appraising for loans as a result of the tax. Any difficulty experienced in getting loans has been due to what is popularly known as the period of financial stringency.

No loan company has withdrawn from Alberta as a result of the tax. All are doing an increased business and other companies are seeking admission.

A penalizing clause in the Act provides punishment for any company attempting to make the borrowers pay the tax.

One fifth of the revenue from the taxes on corporations goes to the support of the Provincial University.

Corporations have many millions invested in Alberta drawing an average of eight per cent interest. Why should they object to a small tax for the benefit of the higher education and the general good of the province?

Nearly every province in Canada imposes a heavier tax than Alberta. Ontario has a graduated tax on the capital of loan companies and imposes one per cent on the gross income besides.

British Columbia taxes loan companies one per cent, just double the Alberta tax.

Banks and insurance companies are taxed in every province and in nearly every instance higher than in Alberta.

Loan companies are not taxed on the individual loans, but on the gross income. The tax averages \$250 to \$300 according to the business done. Is it excessive in comparison with the thousands taken from the people in the way of interest averaging eight per cent?

A firm like Osler, Hammond & Nanton pay a tax of \$175. What is that as compared to the amount taken out of the province?

Ontario derives a large revenue from street railways, telephone lighting companies, etc. Alberta derives nothing from these sources owing to the principle of public ownership obtaining generally throughout the province.

The Conservative leaders who are so busy denouncing the Alber-

ta tax, invariably praise the Whitney government in Ontario for imposing more than double the Alberta tax, and also land the McBratney government in B. C. as statesmanlike for imposing exactly double the tax imposed in Alberta. Why do they so persistently in this, as in nearly all things, discriminate against their own province?

The Liberals have nothing to fear in defending the taxation of corporations. It is a recognised source of revenue in every province in Canada as well as every state in the American Union.

As an evidence of the care exercised by the government in seeing that none but substantial trust companies operate in the province, the case of the Ethna Company, a B. C. concern, will suffice. This company was refused registration because it engaged in the sale of oil stocks and did other business not regarded as being legitimate for a trust company. For doing business without authority, the company was prosecuted and fined \$750 by Police Magistrate Saunders, of Calgary.

Nearly all the big loan companies doing business in Canada have invaded the Alberta field; the best answer to the criticism that capital is being driven out.

INTERESTING CONTROVERSY

Two or three weeks ago, the "Grain Growers' Guide" had a long editorial condemning the "Canadian Courier" for an editorial which appeared in that paper in January commenting on the fact that the Grain Growers' Grain Company showed a profit of over 25 per cent on its paid-up capital, and that the profit would have been well over 50 per cent had not the Co-operative Grain Company lost over \$200,000 in the operation of the Manitoba elevators.

In its issue of March 14th the "Courier" returns to the charge, and in the course of an editorial has this to say:

"Labor men tell us, the most radical of them, that capital oppresses labor to whom it owes its existence. Now comes the Grain Growers' Guide, which says that the capitalists rob the farmer to whom they owe existence. Perhaps it might be wise to have a conference of trades unionists and farmers, and have them decide which of them have most claim to be the supporters and creators and victims of the capitalists.

"At the time, they might decide when a man is a capitalist. If he owns a \$50 share in the Grain Growers' Grain Company on which he earns profits of 25 per cent, is he a capitalist? If not, would he be one if he owned \$1,000 worth of stock? Again, if a man owns his own house and doesn't pay rent, is he a capitalist? If not, if he owns two houses and rents one, is he in this hateful class?

"If a labor union, or a number

of unions, own Labor Temple, and the land under it increases in value just as wicked people's property does, sometimes, are they capitalists? Is the Grain Growers' Grain Company, which some years ago bought a piece of real estate in Winnipeg and erected an office and printing establishment on it, is it therefore a capitalist? If that land is now worth ten times what they paid for it, are they capitalists simply because they have appropriated the unearned increment to their own use?

"If it is right for a grain grower to earn twenty-five per cent on his stock in the Grain Growers' Grain Company, is it right for a shareholder in a bank to earn sixteen per cent (that is the average) on his investment? If a grain grower is justified (and the Guide says he is) in getting all the profit he can out of his grain company, are the thousands and thousands of shareholders in the banks justified in taking dividends of ten, eleven and twelve per cent?

"The vital distinction between a monied labor agitator or a wealthy grain grower, and a hard-working clerk who owns \$5,000 worth of stock in a railway company, needs definition."

TRANSFER ELEVATOR TO BE LOCATED IN VANCOUVER

Ottawa, June 17.—Official announcement was made by Hon. George E. Foster today that the government had selected the site for the new Pacific coast government transfer elevator. It will be built on the site of the government dock at Vancouver.

Plans for the elevator will be prepared at once, although it will be two or three months before tenders can be let. It is expected that the elevator will be modelled largely on the government elevator at Port Arthur, though with possible changes to meet the Pacific coast trade requirements. It will be fitted with all the latest hospital and cleaning apparatus to handle damaged grain.

The government in the construction of this elevator, along with the new government elevator at Calgary, the contract for which was let on June 1, has in view the expansion of the grain trade which is looked for when the Panama canal opens.

Mr. Foster wants to be in position so that Canada can capture more than its share of the increase in commerce which is expected. It is believed that with the opening of the Panama canal the larger part of the Alberta grain will flow to the European markets by the Pacific coast. In addition, in constructing these two government elevators, Mr. Foster has in mind the development of trade and commerce with China and Japan are starting to use flour and wheat, and Mr. Foster believes that the near fut-

ure will see a tremendous development in Oriental trade. He wants to see Canada prepared to hold its own in the fight for commercial supremacy in the Orient.

KILL OFF SUSPECTS

The time of rapid growth is here, and it is well to remember that "ill weeds grow apace." It is the duty of every municipality to do all possible to prevent noxious weeds spreading and going to seed along roads and ditches. It is also the duty of the farmer to do all he can to keep his own land clean and not have his farm, as some farms are, a menace to the neighborhood.

All our bad weeds are importations. Some of them were brought into the country in the days of the Red river cart. Others have come in with imported seed and feed.

The regrettable fact is that through ignorance or indifference they were not detected and destroyed when their elimination would have been comparatively easy. A lesson from present conditions that all should take to heart is that, all strange plants should be regarded with suspicion and destroyed. There exists a very interesting collection of noxious weeds in the Canadian west today. It is sincerely to be hoped that the list will not be enlarged. We have plenty of bad ones, but there are others.

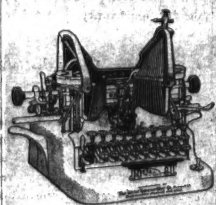

How You Would Enjoy

some of these delicious lamb chops, or one of these big, juicy steaks. If you only came here and saw them. Really, you would not deny yourself such splendid ones. They look so good, fresh and tasty, and they actually are the finest to be had in this section or anywhere.

THE LEADING STORE

LACOMBE'S BIGGEST DEPARTMENT STORE will on Saturday July 11th commence the greatest sale of its business career.

Think what this means---to have the largest stock of Dry Goods, Groceries, Clothing, Hardware, Crockery, Boots and Shoes, in any town in Alberta---selling at cost and less. Remember the date and get here while your Dollars will do double duty.

SATURDAY JULY 11th

and continuing the following two weeks, we will sell goods at prices never equalled in the district. We find our stock about 50 per cent too heavy and intend realizing what money we can by reducing it a good one-half.

THE SALE WITH THE PUNCH WHICH MEANS UNEXCELLED VALUES

Dry Goods

Watch this space. Here's where we hand you some startlers. Cost is forgotten in our endeavor to reduce the stock.
